NEW YORK

born in brooklyn. new york.
influenced by culture. worldwide

THE VISION | Rehab Studios is born from the gritty, seductive world of mental illness, addiction and recovery; where pain meets fantasy and hell merges with heaven. In an airbrushed world, we're designing for real people; the addicts, the divergent, the artists, the outcasts, the truly authentic. We are telling your stories.

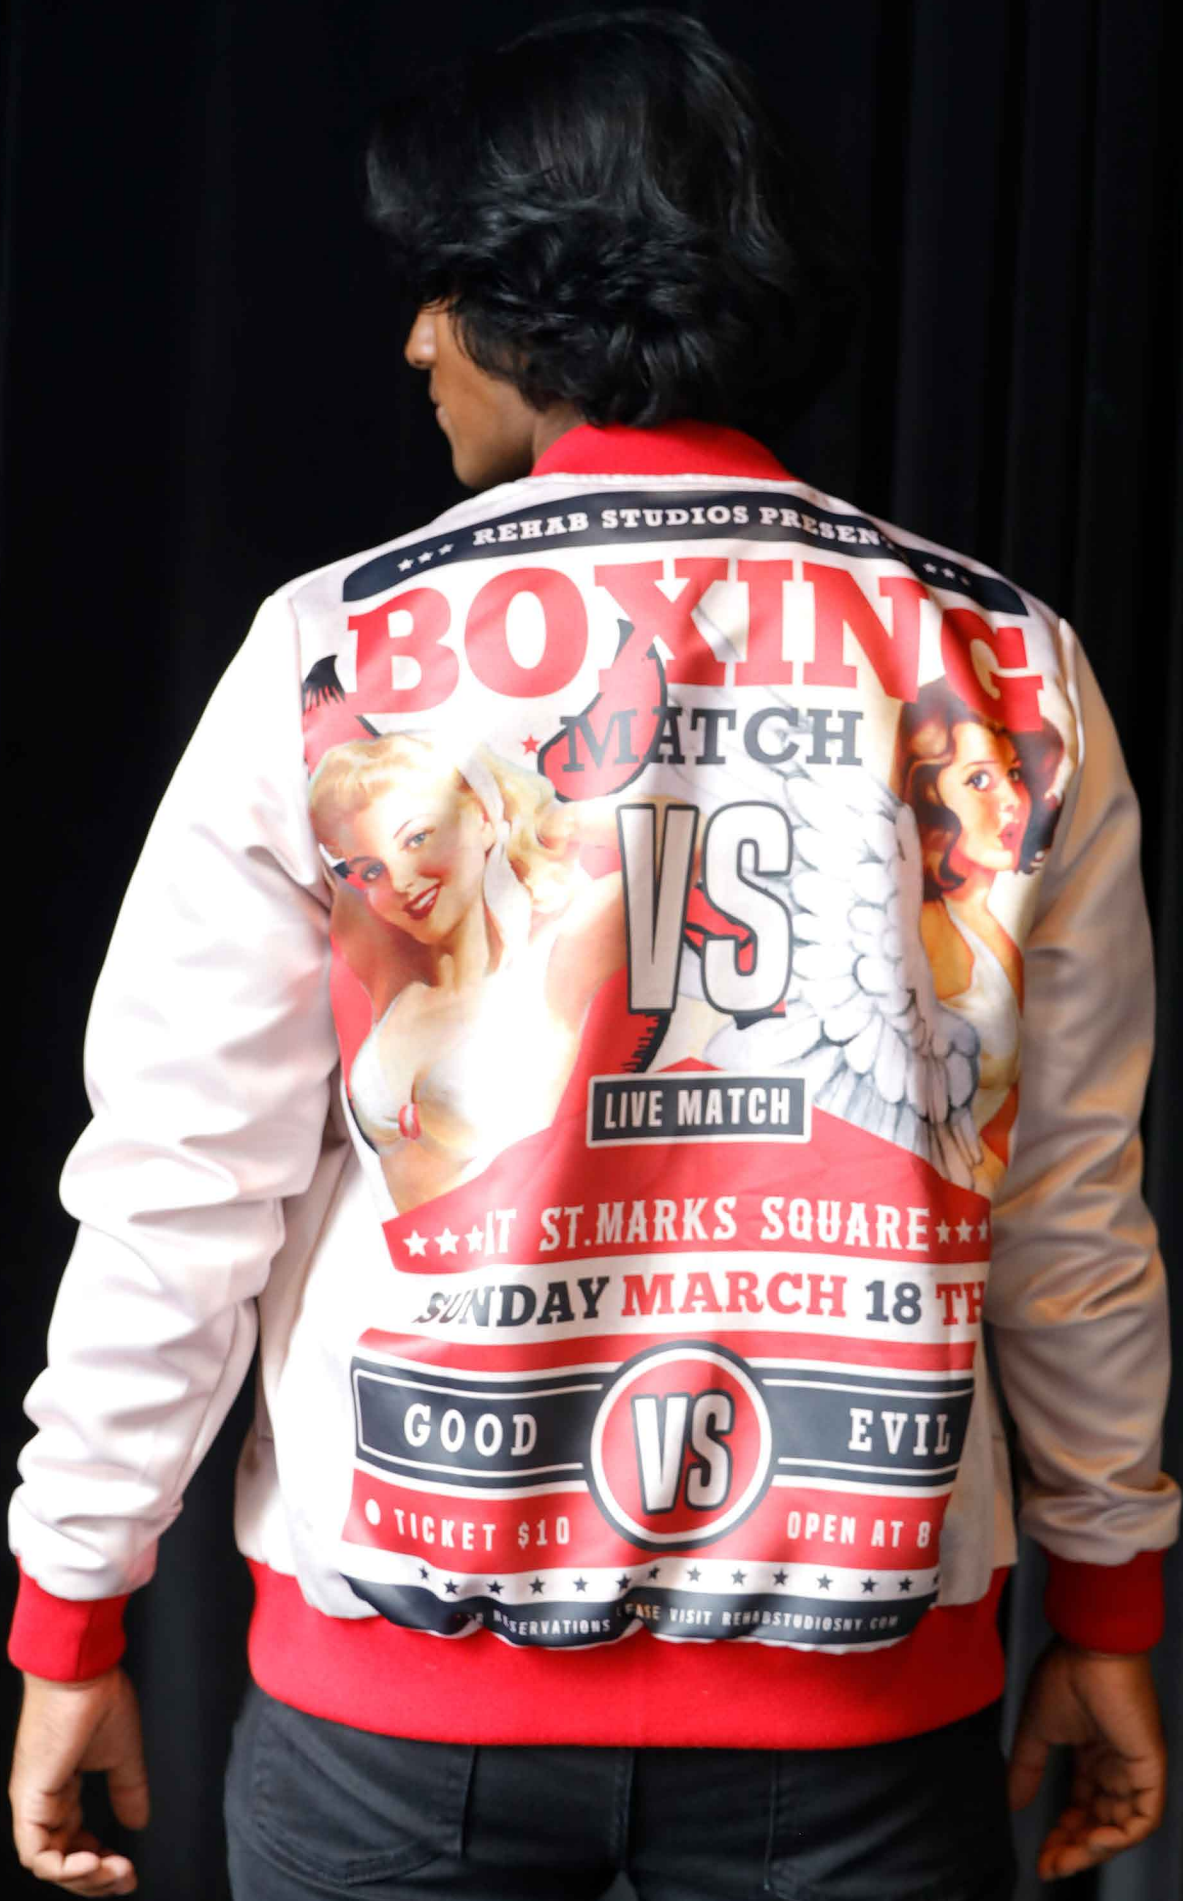

Fuck The Stigma: This mantra plays into Rehab Studio's purpose, mission, and aesthetic. Our designs exist because of and pay homage to the freedom recovery provides and the journey of breaking free. Our mission is to share a new outlook through our art, that loudly celebrates instead of stigmatizing and hiding the struggles that make us who we are. We do this with designs that embrace the rebellious notion of smashing the stigma, destroying the status quo, and forging a new normal.

THE DESIGNS Rehab Studios celebrates freedom and exuberance with bold and playful designs—encouraging wearers to shed their anonymity and embrace individuality, while simultaneously adhering to a luxe and elevated aesthetic. Our collection features original designs and handmade jewelry, crafted with high quality materials to last a lifetime. The Ready-To-Wear collection introduces a new sense of luxury and whimsy, featuring tulle, ostrich feather and silk cut in flattering silhouettes. We infuse classic resort-wear styles with our signature edginess for a fresh It-girl wardrobe.
